

Product Knowledge Base – XSound Pro Headphones

1. Product Overview

The **XSound Pro Headphones** are premium over-ear, noise-cancelling headphones designed for professionals and everyday listeners. They combine superior sound quality with comfort, long battery life, and seamless connectivity. The headphones support both wired and wireless (Bluetooth 5.2) modes, making them versatile for travel, work, and entertainment.

Key Highlights:

- Active Noise Cancellation (ANC) with three adjustable modes
 - 40mm dynamic drivers with Hi-Res certified sound
 - 35-hour playback on a single charge
 - Fast charging: 10 minutes charge = 4 hours playback
 - Dual device connectivity (phone + laptop simultaneously)
 - Touch controls for volume, playback, and calls
-

2. Frequently Asked Questions (FAQs)

A. General

Q1. What colors are available?

A. XSound Pro is available in three finishes: Black, Silver, and Midnight Blue.

Q2. Is it water-resistant?

A. The headphones have an IPX4 splash-resistance rating, meaning they can withstand light rain and sweat, but they are not waterproof.

Q3. What is included in the box?

A. Box contents include:

- XSound Pro Headphones
 - USB-C charging cable
 - 3.5mm audio cable
 - Travel case
 - Quick start guide
-

B. Connectivity

Q4. How do I pair with Bluetooth?

A. Hold the power button for 3 seconds until the LED blinks blue. On your device, search for “XSound Pro” under Bluetooth settings and tap to connect.

Q5. Can I connect to two devices at once?

A. Yes. XSound Pro supports multipoint connectivity. You can pair with your laptop and smartphone simultaneously, switching seamlessly between calls and music.

Q6. Does it support voice assistants?

A. Yes, it supports Siri, Google Assistant, and Alexa via long press on the touch pad.

C. Audio Features**Q7. How does noise cancellation work?**

A. XSound Pro uses hybrid ANC with external and internal microphones to cancel unwanted sounds. Users can choose from three modes:

- High ANC (for flights and noisy areas)
- Low ANC (for office use)
- Transparency Mode (to hear surroundings clearly)

Q8. Does it support spatial or 3D audio?

A. Yes, the headphones support spatial audio for apps like Apple Music, Netflix, and Dolby Atmos-enabled content.

Q9. Can I use it without power?

A. Yes, when the battery runs out, you can use the 3.5mm wired connection for unlimited playback.

D. Battery & Charging**Q10. How long does the battery last?**

A. Up to 35 hours with ANC on, and up to 50 hours with ANC off.

Q11. How long does it take to fully charge?

A. Approximately 2 hours for a full charge via USB-C.

Q12. Is fast charging supported?

A. Yes. A 10-minute charge provides up to 4 hours of playback.

E. Troubleshooting

Q13. My headphones won't turn on. What should I do?

A. Hold the power button for 5 seconds. If still unresponsive, charge for at least 30 minutes and try again.

Q14. The sound is distorted. How do I fix it?

A. Check if:

- The Bluetooth connection is stable.
- The headphones are within 10 meters of the device.
- No other devices are interfering.

Q15. ANC doesn't seem effective. What could be the reason?

A. Ensure ear cushions are snug, firmware is updated, and ANC mode is properly selected.

3. Warranty & Support
